Describes management, planning, direction and decision making which are important for society. Library provides direction to the user. Education is also included in this paper. Conclusions and valuable suggestions are given in the last.

1. Importance of the Library in the Society

Library is a place where books, newspapers, periodicals, manuscripts, maps charts, microform etc, are kept for reading. Library is an accumulation of knowledge and service agencies. It disseminates the information one phase to another. Library preserves the records and these records are very useful and beneficial for society. Library and society are inter-linked and it is very important for every aspects of society. Library is used to transfer knowledge generation to generation. Library is a treasure house of knowledge. It is as the heart of any educational institution. Users can read these documents without any distinction and they can increase their knowledge with help of library. Knowledge is a power. One can update one's knowledge by reading regularly in a library. Library plays a very important role in many fields such as development of education, maintaining the culture, improvement in the society, creating the discipline, making economic development, welfare the society, research work etc. It is also very significance to democracy, positive attitude, past, present, future. It has a capacity of removing illiteracy, corruption, poverty, unemployment. It provides knowledge to society and it brightens the society with the knowledge.

Library plays prominent role in the society. It is a placid place and everyone can read here without any disturbance. Everyone likes to sit in the library because they can increase their knowledge. Human being can misguide to anyone but library is a faithful place and it cannot misguide the user. Library can baulk the indiscipline in the society. User can read in the library uniformity. People can become mystique personality with the help of library. We can applaud the library in every field. It is a very luminous place for society. User can reach accurate consequence by library. They can ransack new thing in library so we can say that, the library is marvelous place. It gives liberty everyone. Importance of library cannot overlook. It can pander the person in every place so library is a paramount. Library braces the user who comes in the library and user cannot be fiasco because it provides the direction to user. Success can be procured by the library. It is not an extravagant place for anybody. It can not pester the life of a person rather it gives the direction to the person and we presume that it can change the life of users. Library comprises maximum documents and user can get any document in easy way. Library does not disdain as race, religion and caste and everyone is equal in the library. Ultimately, library is very significant for society. The time we spend in the library is the most rewarding. Anyone can take momentous decision with help of library. The growth in library has a very salutary effect. Library is very lucrative for the society.

2. Safeguard of Fundamental Right

Part III of the Constitution contains a long list of the Fundamental Rights. These rights are regarded as fundamental because they are most essential for the attainment, by the individual of his/her full intellectual, moral and spiritual status. Classification of Fundamental Rights:-

- Right to Equality (Art. 14 – 18)
- Right to Freedom (Art. 19 – 22)
- Right to against Exploitation (Art. 23 – 24)

- Right to Freedom of Religion (Art. 25 – 28)
- Cultural and Educational Rights (Art. 29 – 30)
- Right to Constitutional Remedies (Art. 32)

These articles are very indispensable for the society. Library is a safeguard of these articles. User can sit in the library without any distinction because every person is equal in the library. Library does not discriminate according to race, religion, caste or sex. Library gives liberty to everyone. Library does not exploit anyone in fact it creates awareness in the society. User can know that every religion is equal with help of library. Library can maintain the culture and provide education to the society. Rule and regulation can be read in the library so library is supporting place for human being. Users can read many books which are related to law and they can know court and they can put writ in the court with help of the library so the library is a safeguard of fundamental rights. Library strives to enhance equality and social Justice. It creates faith of democracy and library plays a vital role in democracy.

3. Research

Research is an endeavour to discover, develop and verify knowledge. Research is concerned to search new thing for society. Research cannot be thought without library. Library is very necessary for research work. Users come in the library and they find various types of documents in library and they can complete their research. Research provides new things the society so research is very indispensable for society and library is a very importance for research.

4. Key of Success and Develop the Mind Power

Success is not possible without library because library is a key to success and library is treasure house of knowledge. There are so many prestigious competitive exams and these cannot be got through without library. Library can provide newspapers, books, magazine to the users and they can read these documents. They can clear any test with help of library. Library is a temple of education and it provides the direction to every field so library is a key to success. Library can develop the mind power.

5. Motivation

Motivation is as necessary as water for human being. Library is a treasure house of motivation. Users read books, newspapers, periodicals and other documents and these documents can motivate the person easy way. These documents are true friend of person because they cannot misguide to anybody. They help the person in every place. So library is very significant for motivation to the persons. It creates positive attitude in human being.

6. To Remove the Corruption and Addiction in the Society

Everyone knows that corruption and addiction are increasing in the world. Corruption and Addiction are very bad for society they can destroy the society. Government has failed to restrict the corruption and addiction. Library can remove the corruption and addiction. Library consists of different type of the documents and these documents can create awareness the society about corruption and addiction. Person can be healthy and wealthy by library so library is very important to remove the corruption and addiction in the society.

7. Save the Time

Time is very precious for everyone. Library is that place which saves the time of person because user can get every type document in the library. It can provide maximum knowledge with minimum time. It is not costly. User read about great personality in the library and he also wants to become as great person then he knows the time and he does not waste time. He knows the importance of time with help of library so library is very important for that users.

8. To Maintain Discipline and Cooperation

Discipline and cooperation are very important for every institution. Success of any one depends on the discipline and cooperation. Users can succeed with help of discipline and cooperation. Everyone can learn discipline and Cooperation in the library. Users come to the library and sit in the library without any noise. He can read in proper way in the library so library can create discipline and cooperation in the society.

9. Recreation

Recreation is very essential for human being. Life will be bore without entertainment. Users feel relax in the library. User can read comics books in the library. It provides material for relaxation, entertainment. It organizes cultural activities for the entertainment of the public. Library is a type of institution which helps the users in every mode.

10. To Maintain the Culture and Socialisation

Culture consists of attitudes, beliefs, values, and skills which are current in an entire population, as well as those special possibilities and patterns which may be found within separate parts of that population. Culture is very important for society and library can maintain the culture easy way. It can transfer culture generation to generation so it is very important. Socialization is that process which maintains the culture. Socialisation is long learning process. Child learns first in family and then he goes to school, college and university. He can learn maximum in library so library is very significant to maintain culture and socialization.

11. To Expand Peace in the World

Today every nation wants to keep peace in the world because third world can destroy everything. Library can play important role to expand peace in the world. It can create awareness in the public. It can tell demerit the world war so library can play significant role to expand peace in the world.

12. Communication

Communication is the transfer of information or message from sender to receiver through a channel and there is a response or feed back. Library is also communication channel. It is used to transfer the information from one phase to another. This process is very beneficial for the society.

13. To Decrease the Population and Increase Literacy Rate

There are so many reasons that population has been increased in the world. One of them is lack of awareness in the society. Library can show the real picture in the front of society. It can tell weakness of maximum population. It can aware the public about more population. Library can decrease the population in the world. Library should open in every village, block, city, and district because it can change the habit of individual. Then maximum people will be read in the library. In this way, library can increase literacy rate in the world, which will be population growth rate down.

14. Reduce Poverty and Unemployment

Poverty has been increasing day by day. Library can reduce poverty easy way because it can tell method how poverty can be decreased in the society. It can create awareness in society. It can change the society. Unemployment can be removed by library. Users read maximum books and they can clear any exam by library. In this way, user can get job easy way with the help of library.

15. Information, Knowledge and Information Retrieval

Information is a collection of statements, facts and the figures. Information plays a most important role in daily life of human beings. Library consists of various type of information. User can get information in library. Information is obligatory for every part of society. Library is treasure house of knowledge. It consists of a lot of documents which are very significant for everyone. It can increase knowledge of users. Users can get every type of information from the library. Users can read different type of documents in the library. In this way, library is very knowledgeable place and this knowledge is very lucrative for society. Information retrieval is possible in the library. User can get information again and again in the library. There is not any restriction in the library.

16. Management, Planning, Direction, Decision Making and Leadership

Management is a universal process in all organized and social and economic activities. Success cannot be gained without proper management. No organization can run successfully unless there is someone to manage its activities. Person cannot learn importance of management without library. Library helps the person to do proper management of time and other things. Promotion can be gained with proper management. Planning is deciding in advance what to do, how to do it, when to do it, who is to do it and it is a blueprint for action. It is very necessary for decision making. It reduces uncertainty and guesswork. Planning helps in making full advantages of cooperation and coordination. It helps in providing an integrated action for future growth and development. Planning provides a necessary scheme for achieving the goals. User can learn in library about planning and he gain success by planning. Library is guide, teacher, and supervisor and provides the direction to the organization. Library is also very important for decision making. Decision can be taken with help of library because library is treasure house of knowledge. Library can create good leader in the society. These leaders can do salutary for the society.

17. Education

Library provides continuous education and it can educate to every person in the society. User can read all documents in library. It attracts toward the library and it can change the habit of user. Library is vital for the teaching and research work. Research work is not possible without library because library can provide maximum material related to research work. It supplies sufficient material to make the important of library. Library is a conservation of knowledge so user can obtain knowledge any time.

18. Conclusion and Suggestions

Library is so important in the society that we cannot neglect. Library is a place where books, newspapers, periodicals, manuscripts, maps charts, microform etc, are kept for reading. It gives the light to society. It is safeguard of fundamental rights. It is key to success and develops the mind power. It gives education to users and motivates us time to time.
